

# PARTS OF A PATTERN

HELP WITH UNDERSTANDING HOW TO READ THE BACK OF A PATTERN

**Title:**  
Name of Pattern

**Description:**  
Write up to describe the look and feel of the garment. Perhaps with suggestions on how to style and wear.

**Line Drawing:**  
Outline view of Front and Back of the pattern so that you can easily see the style lines.

**Styled Shots:**  
Alternative views of the pattern. May also include it made in different fabrics.

**Fabric Suggestions:**  
Best fabrics that the pattern was designed for to use to achieve the desired result. If you choose a different type of fabric, you may not get similar results.

**Notions:**  
Extra items you will need on hand to complete the pattern. Usually includes things you may already own, plus some things you may need to purchase.

**Fabric Required:**  
Amount needed to make your pattern. Most of my patterns are based on assuming you are using a direction pattern that may require pattern matching.

**Mesurements:**  
Used to determine size. Remember, most of us do not fall into one category on the size chart. This is the beauty of a multi sized pattern and you will learn how to grade between sizes in a later Module.
